EXPERIENCE

Software Developer
Qburst

🗓 July 2022 – Present   📍 Kochi,Kerala

- Contributed to the Frontend development of SECONDS, a web app that included My Profile, Update Profile, Reset Password, Forgot Password, Create Advertisement, My Advertisements, and Edit Advertisement features, using modern web technologies and best practices to provide a seamless and user-friendly experience.
- Designed and implemented Login and Sign Up components with robust **authentication** mechanisms to ensure data privacy and protection for users. Additionally, implemented a refresh token using axios interceptor to keep the user persisted even if the access token expires.
- Enhanced the user experience by utilizing **Mapbox API** for displaying and selecting locations, and implementing Carousel for Image display in Create Advertisement.
- Enabled **data storage** across different tabs in Create and Edit Advertisements, making it easy for users to navigate and edit content without losing progress.
- Skills : ReactJS , Material UI, Saas , Redux-toolkit.

Frontend Intern
Xena Intelligence

🗓 Nov 2021 – Dec 2021   📍 Kochi, Kerala

- Worked on the Landing Page of the company.
- Skills : NextJS , Tailwind CSS.
